RESOURCE REPORT 2022

Energy change-over

EU vil ha enda mer norsk olje og gass

EU kommer til å ha bruk for både olje og gass fra Norge i lang tid fremover, heter det i en felles uttalelse fra oljeminister Terje Aasland og EUs energitopper.

REMAINING PETROLEUM RESOURCES

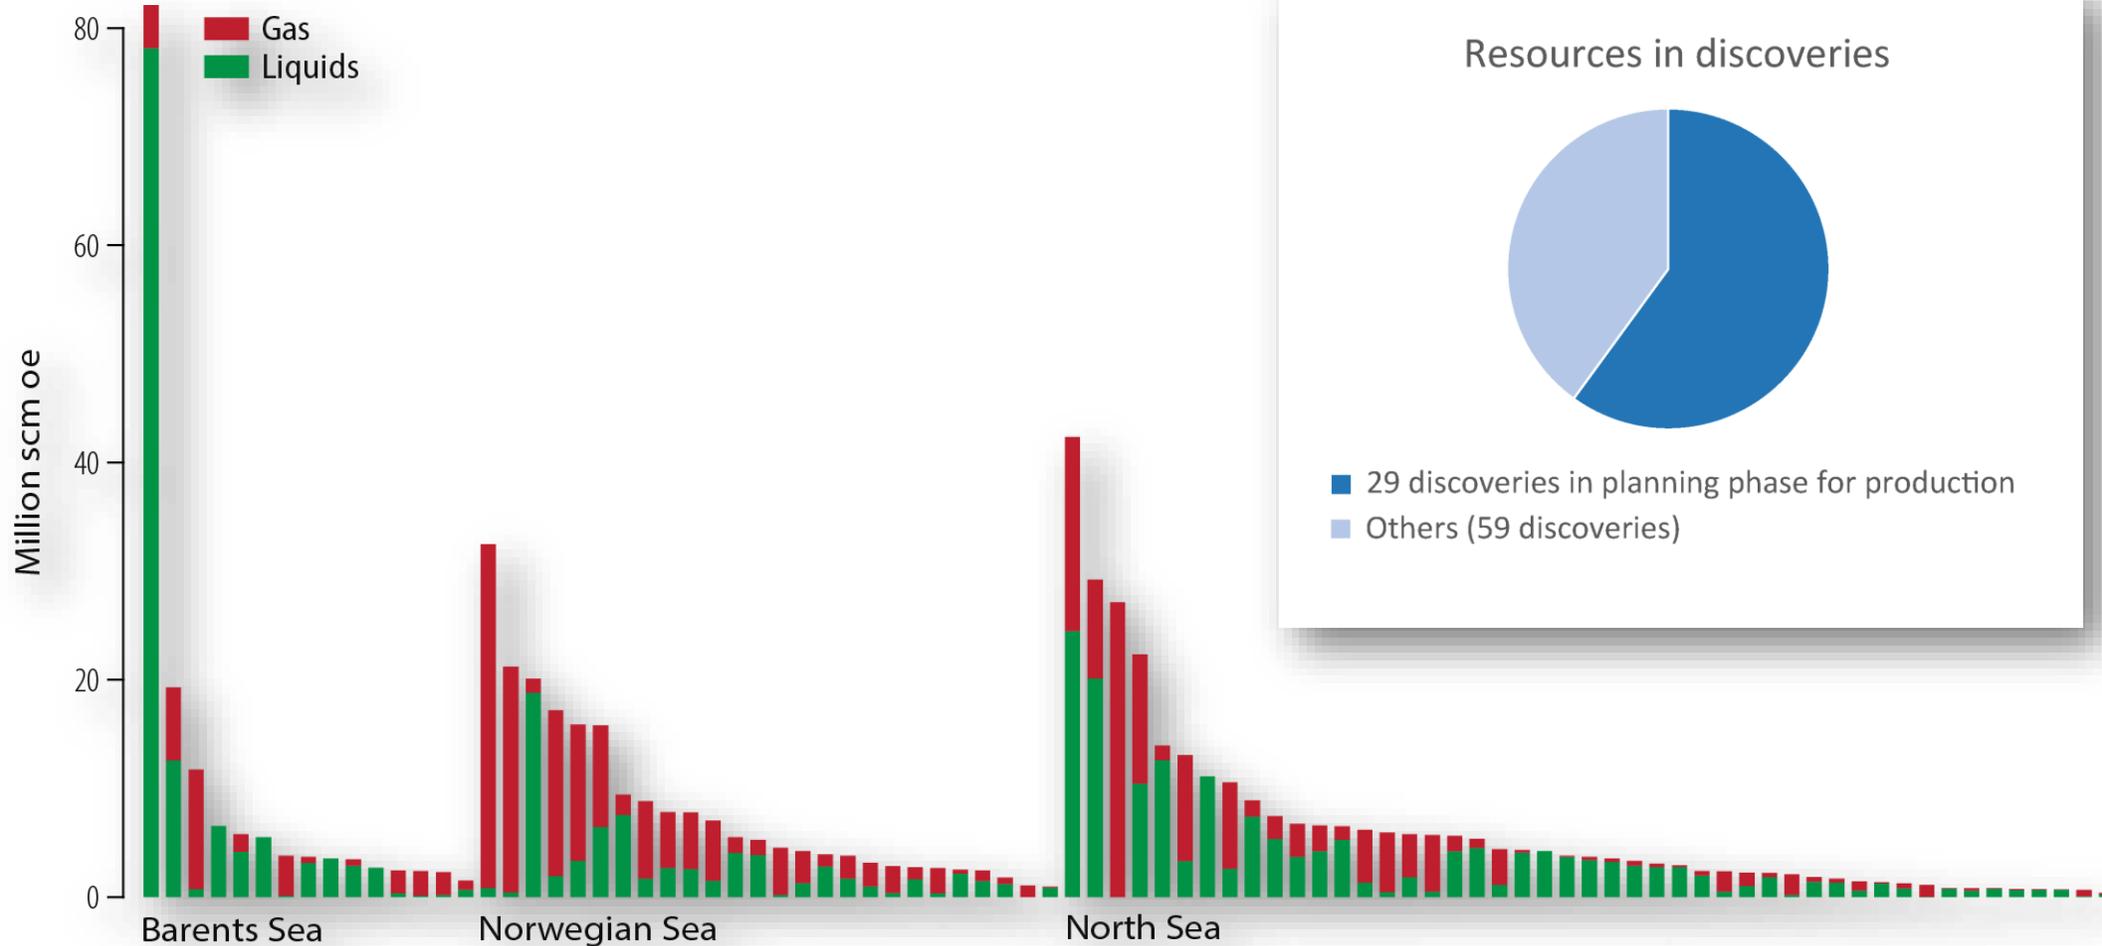

Half has been sold and delivered

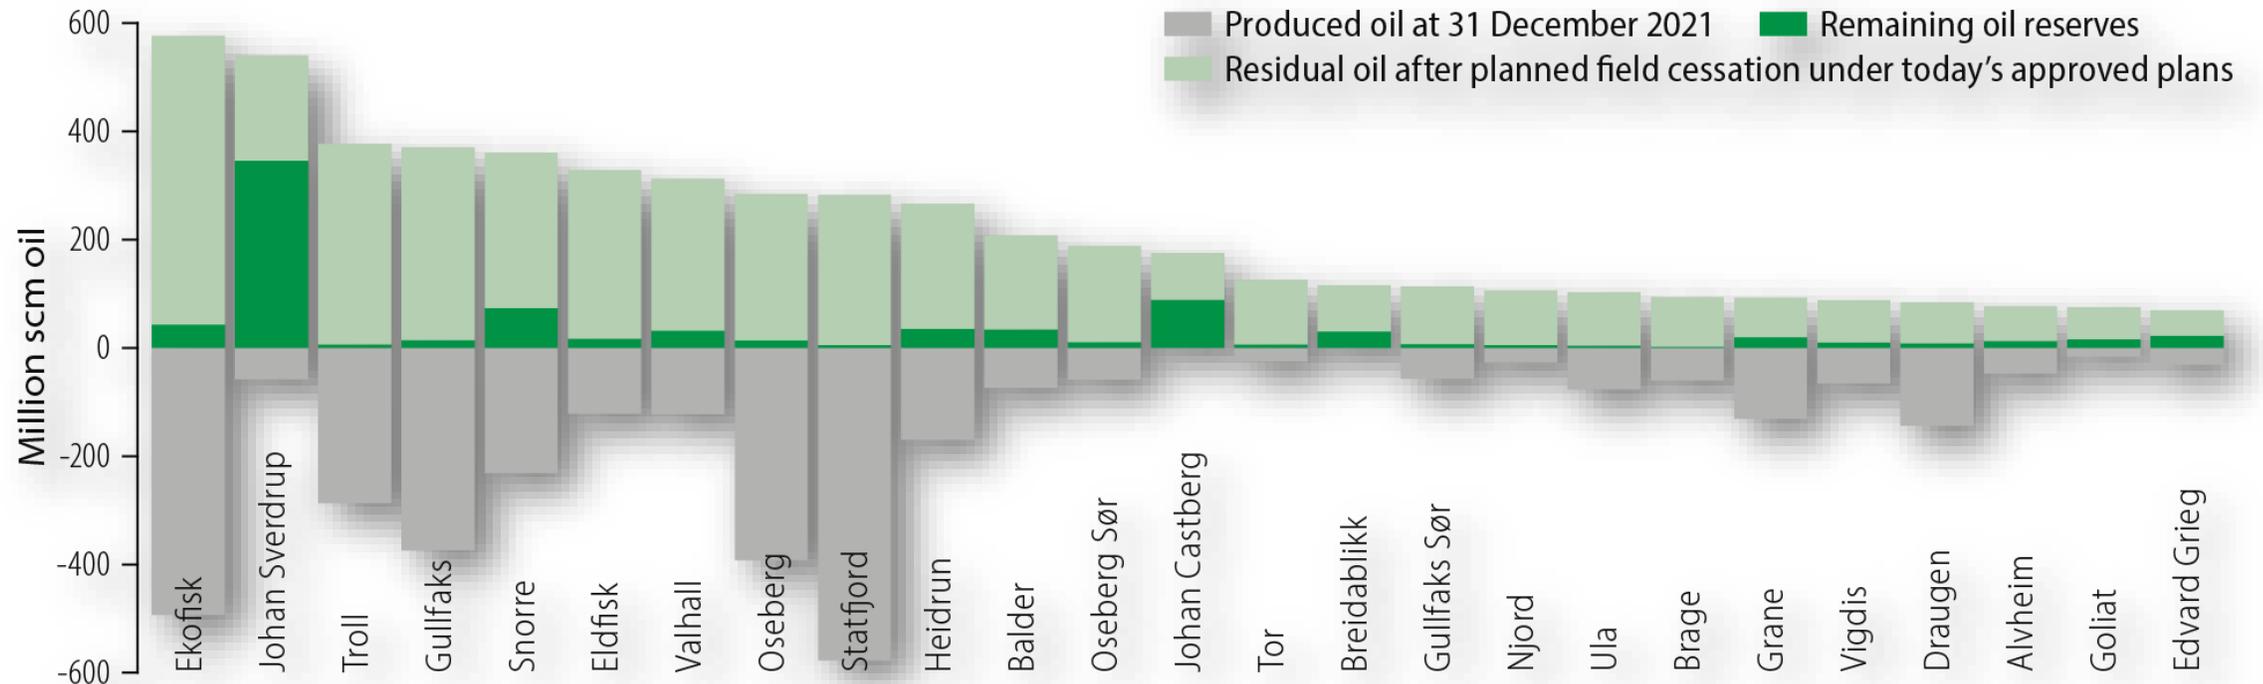

Substantial undiscovered resources remain on the NCS

Many discoveries left to develop

Significant remaining resources in producing fields can be lost

STABLE, LONG-TERM
AND SAFE OIL- AND
GAS PROVIDER TO
EUROPE

WHAT DOES IT TAKE?

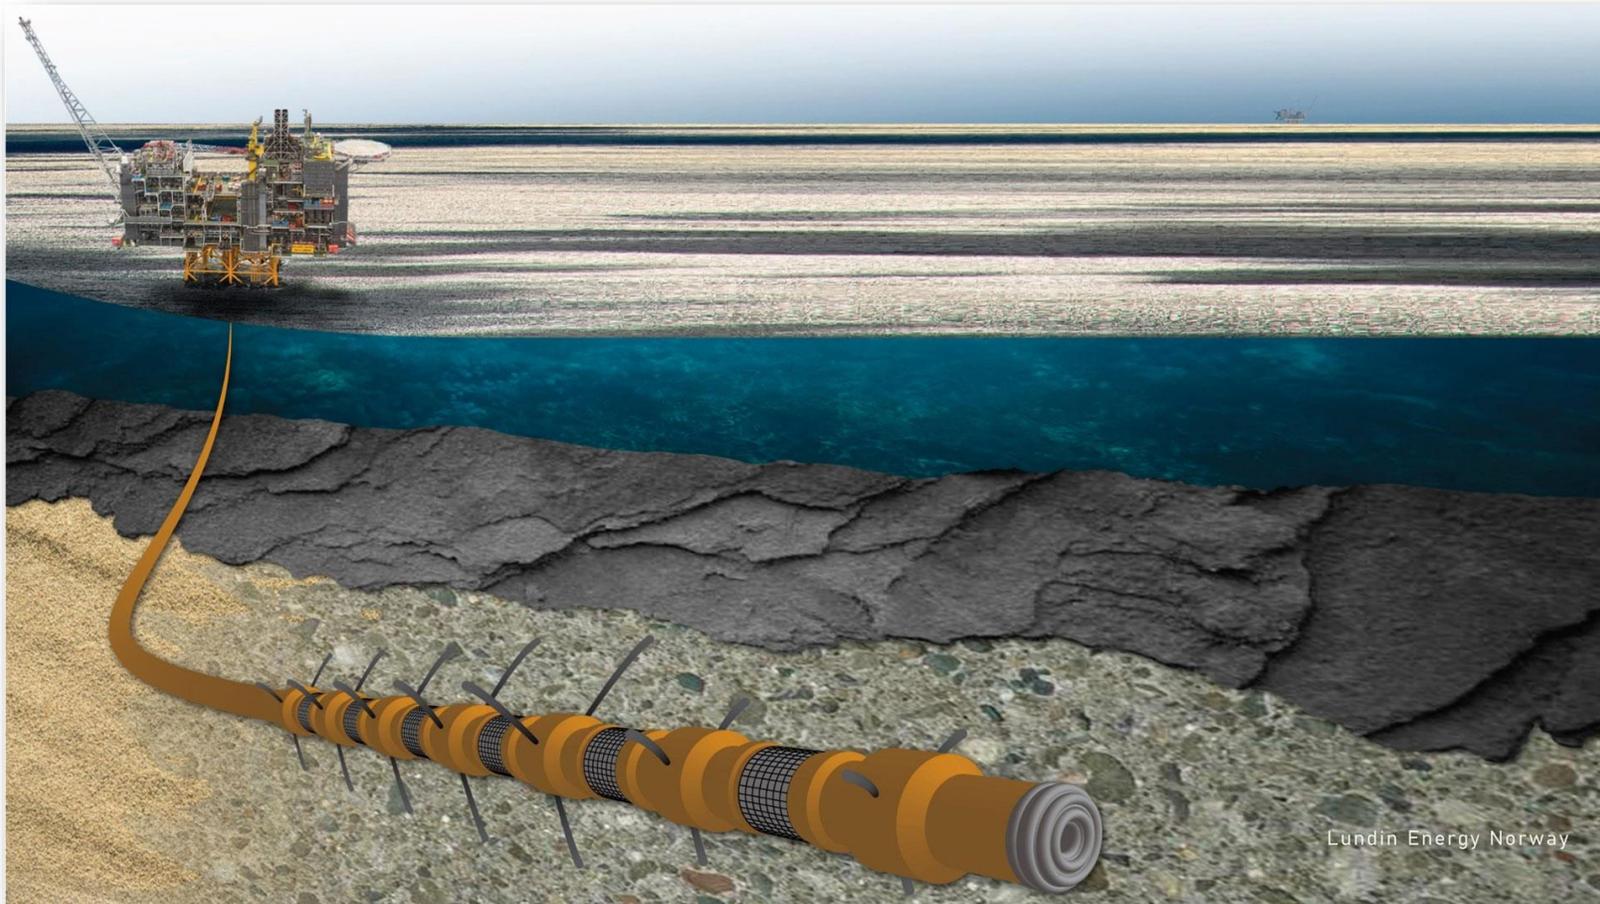

Production outlook towards 2040

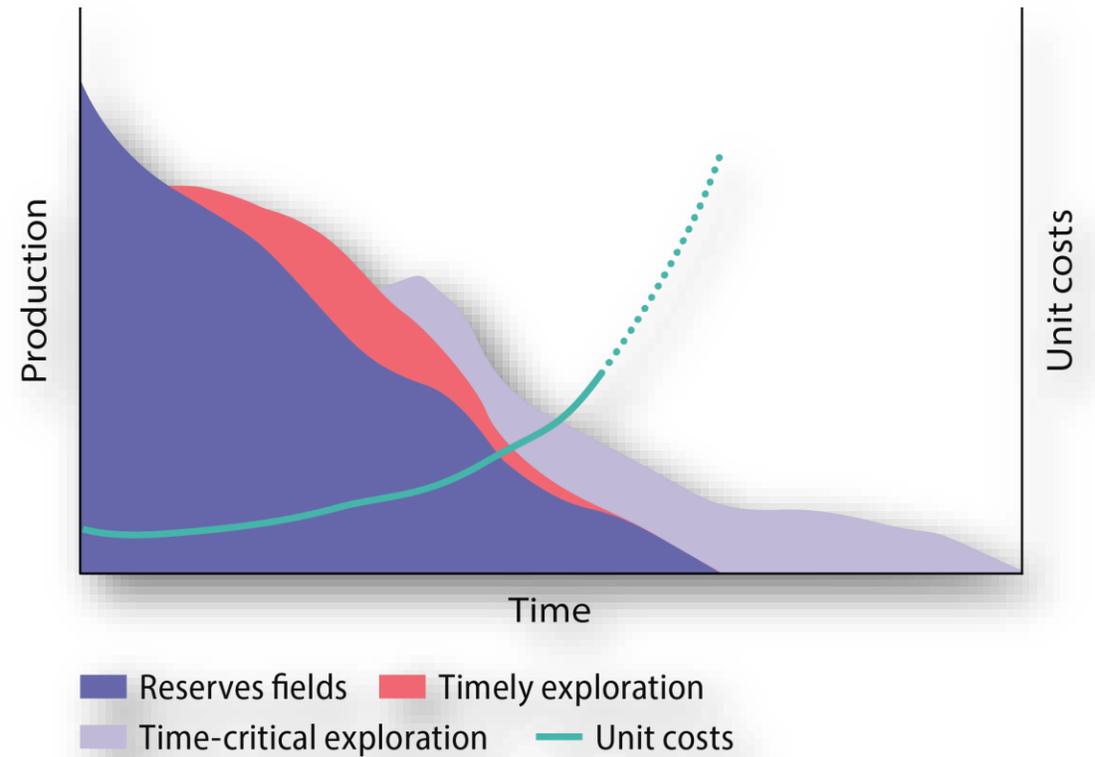

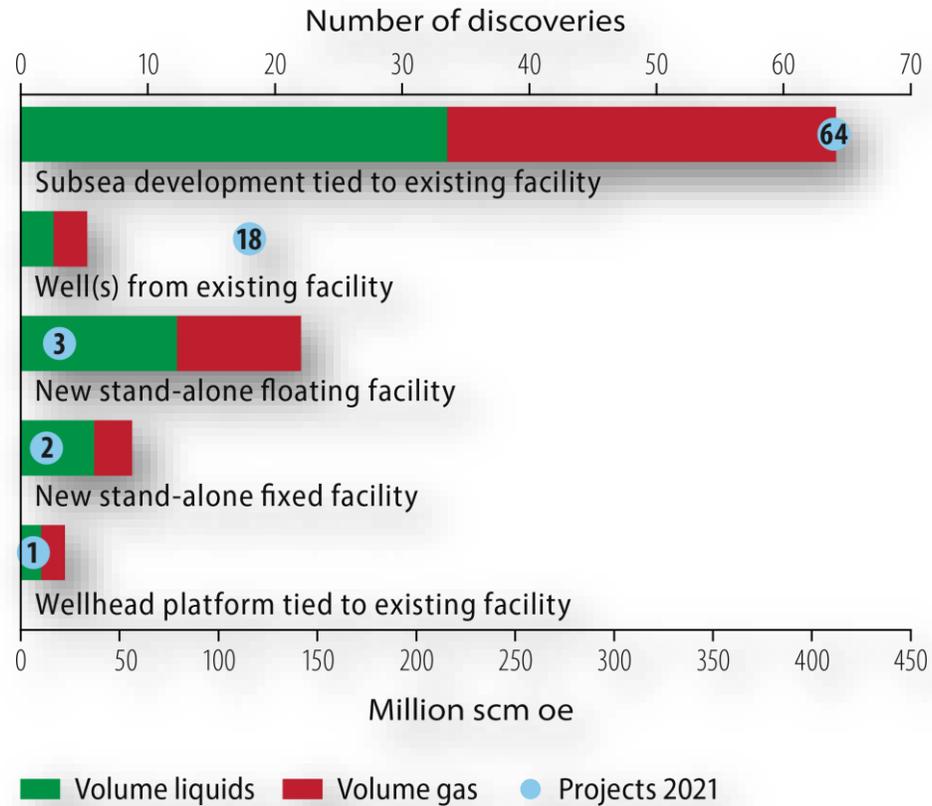

Ability and willingness

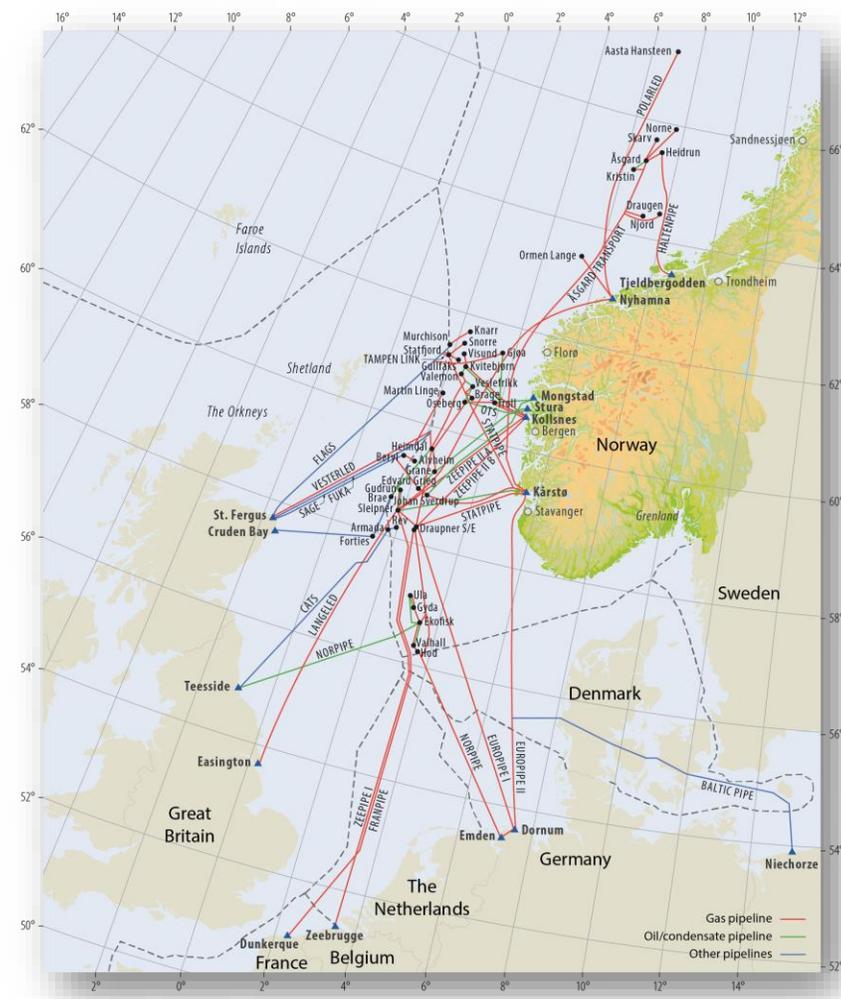

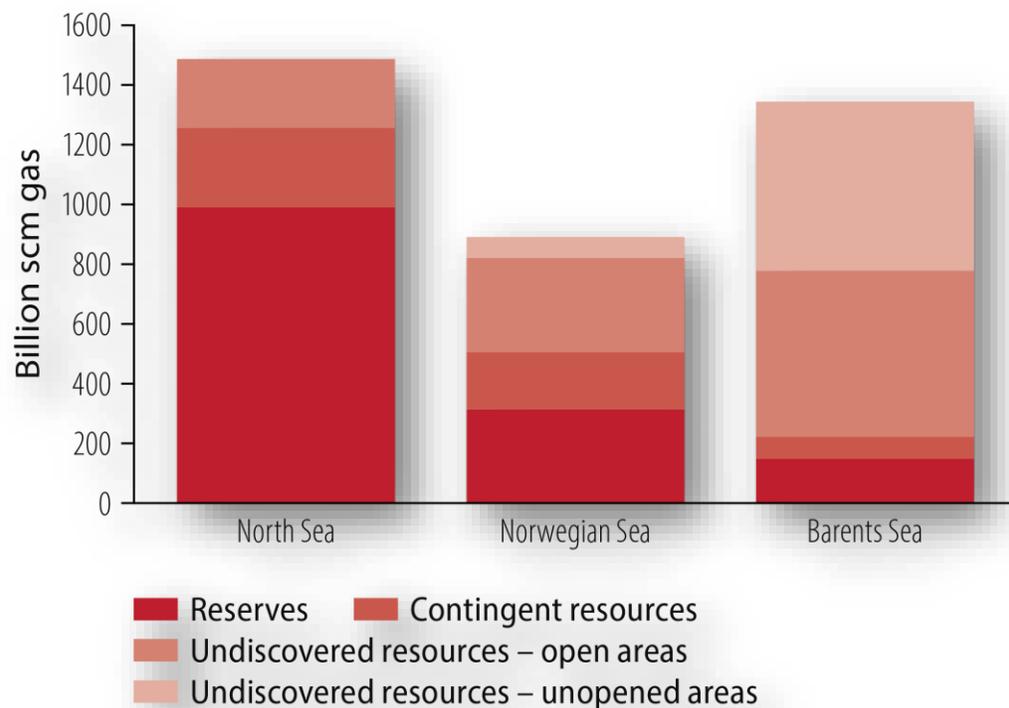

Technology development

Coordination for lower unit costs

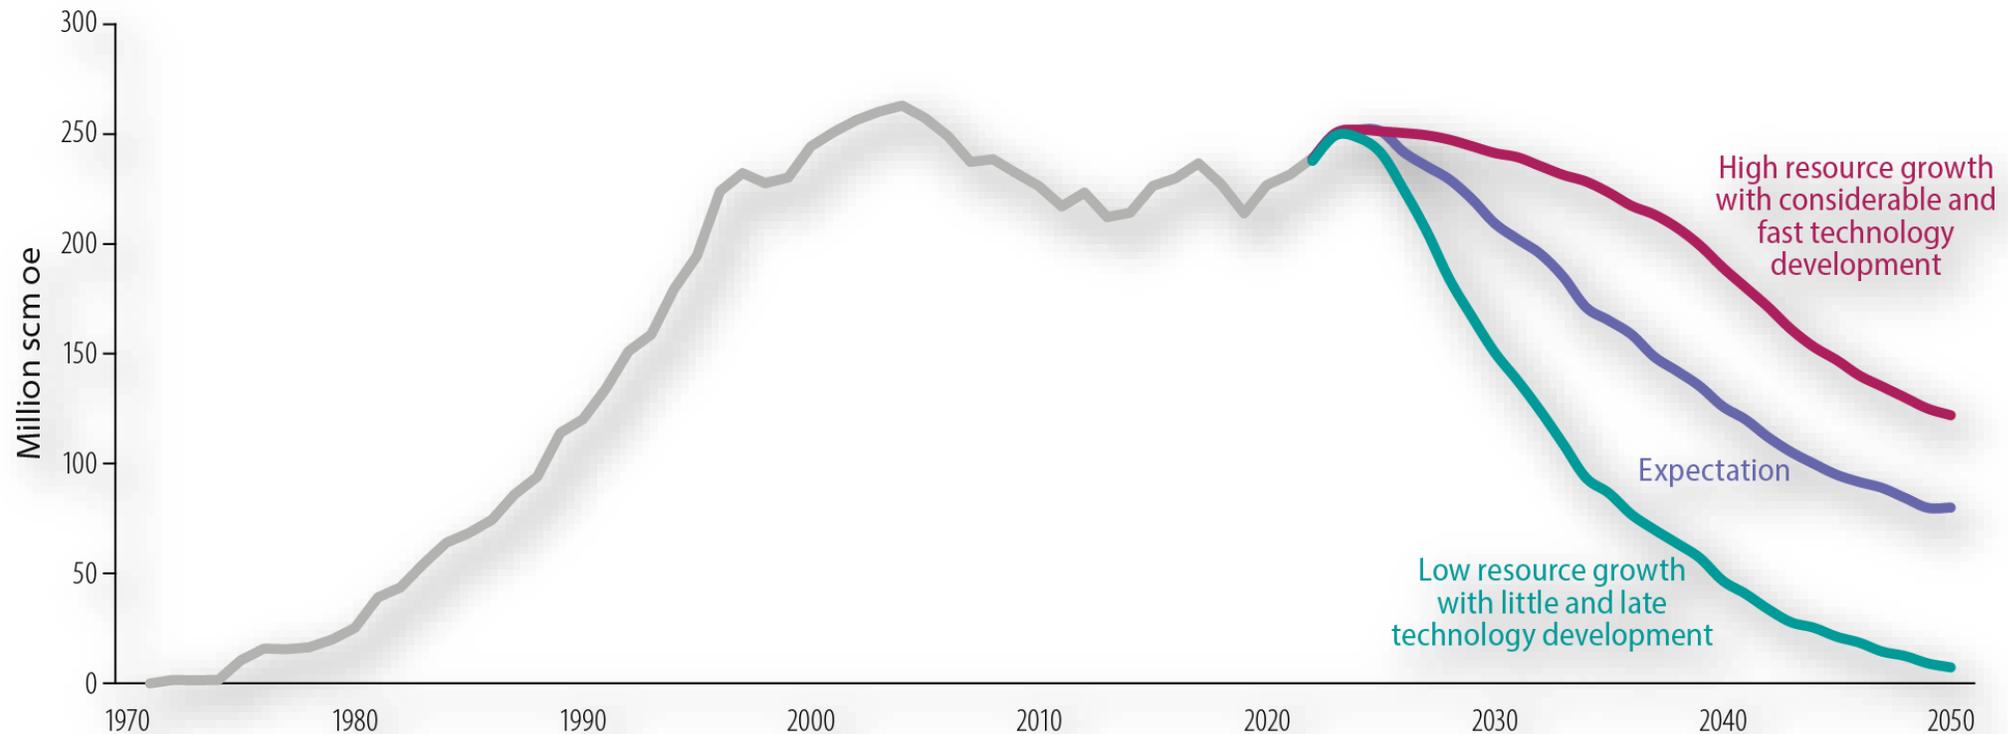

Develop remaining gas resources – in the north too

The energy transition – NCS can contribute

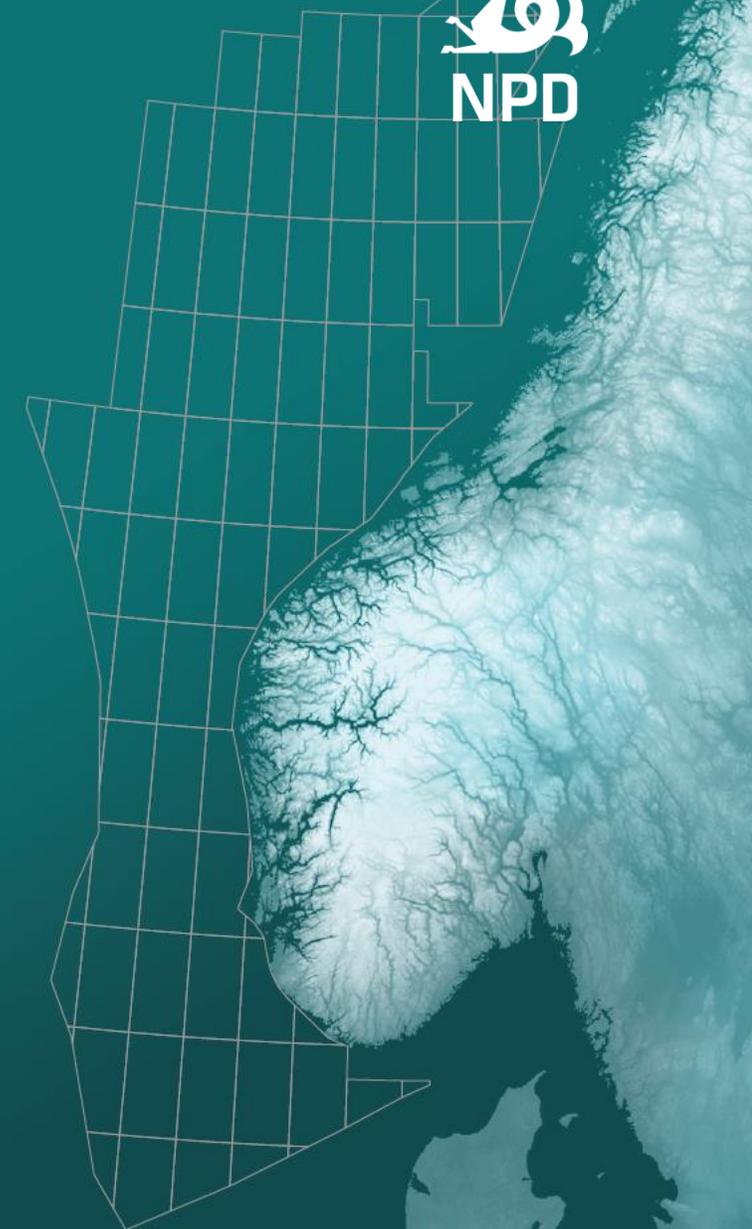

Scenarios for production development towards 2050
