Vøringutstikkeren

- Ble samlet inn MBES og prøver i 2013 og 2016.
- Samlet inn detaljert MBES med AUV i 2018
- Viser stor variasjon i tilstedeværelse og tykkelse på skorpene

Oppsummering

- Interessante Mn-skorpe forekomster
- Interessante mengder viktige metaller
- Videre kartlegging i år
