Produksjonsprognose

Langsiktig perspektiv

Sokkelåret 2015

- Like mange letebrønner som i 2014
- 82 felt i drift ved årsskiftet
- Fire nye felt i produksjon
- Fire godkjente PUD-er
- Ny rekord for gassalg
- Oljeproduksjonen økte for andre år på rad
- Petroleumsproduksjonen vil holde seg like høy de neste fem årene som i de fem foregående
- Det ble boret rekordmange brønner
- Økt regularitet og effektivitet
- Kostnadene begynner å gå ned

Takk for oppmerksomheten!

A pessimist sees the difficulty in every opportunity – an optimist sees the opportunity in every difficulty.

- Sir Winston Churchill
